## Projects

### **relibc** | Maintainer

- C standard library written entirely in **Rust**
- wrote the `stdio.h` implementation

### **small** | Author & Inventor

- stack-based string implementation in **Rust**
- usage in **ion shell** increased performance by **30%**

### **process memory injector** | Author & Inventor

- library for manipulating the memory of other processes in **Rust**

## Experience

### **University of Western Australia** | unit tutor

February 2020 – June 2020

- tutored 30 students in data structures and algorithms using **Java** under **Prof. Amitava Datta**

### **Arista Networks** | software engineering intern

Supervisor: Alex Webster (Technical Lead) | November 2019 – February 2020

- created a custom Linux image using **Yocto** for network enabled bootable USB drives
  - reduced theoretical fix-time for devices affected by corrupted images by approximately 1 day
  - reduced theoretical regression test time by 10 minutes
- developed tools in **Python** to search for vulnerabilities in Arista operating systems
  - opened approximately 1500 bugs to be triaged

### **Arista Networks** | software engineering intern

Supervisor: Alex Webster (Technical Lead) | January 2019 – February 2019

- developed tools in **Python** to discover layer 1 network topology, allowing for previously impossible topology analysis
- researched and developed methods in **Python** for creating network-accessible USB boot drives to reduce testing time

### **Talis Consultants** | undergraduate technician

Manager: Granger Bennett (Noise Section Leader) | 2016 – 2018

- developed noise management solution **Nexus** in **C#**
  - in use by Fortescue Metals Group, Alcoa and others in daily operations

## Education

### **Masters** | **Software Engineering**

University of Western Australia | 2019–Nov 2020

- GPA: 5.6
- WAM: 72.4%
- Software Design Project | 90%
- Testing and Quality Assurance | Distinction
- Computational Modelling | Distinction

### **BSc** | **Software Engineering**

University of Western Australia | 2017–2019

- GPA: 5.5
- WAM: 70%
- Data Structures and Algorithms | 89%
- Networks and Security | 91%
- Digital Embedded Systems | 91%
- High Performance Computing | Distinction

## Other

### **Computers**

- UWA Programming Competitions Society
  - vice president | 2019 – 2020
  - secretary | 2020 – Present
  - committee member | 2018 – Present
  - lecturer | 2017 – Present
  - competitor | 2017 – Present
- University Computer Club
  - treasurer | 2019 – 2020
  - vice president | 2018 – 2019

- ICPC
  - Divisionals finalist 2019
  - Divisionals finalist 2018
  - Divisionals finalist 2017

### **Music**

- Audition choirs
  - The Winthrop Singers
    - bass section | 2017 – Present
  - West Australian Chamber Choir
    - bass section leader | 2019 – 2020
